

Welcome to a new year at Tritt Elementary, where our staff, parents and students are *A Community of Engaged Learners as ONE TEAM!* After a wonderful summer with my family traveling and lounging, I am ready to dive into the 2017-2018 school year head first! I'm excited that Cobb County has simplified its focus to include intentional, data driven instruction and ensuring that Cobb is the BEST place to teach, lead and learn. Based on these priorities, I plan to support the Tritt staff instructionally as we implement our new writing/reading adoption, grow reflective students by shifting their Mindset focus, promote the "global community" by having students look outside of East Cobb and most importantly, HAVE FUN! The Tritt community is not only where I work, but the place I live and play. Ensuring that Tritt IS the best place to teach, lead and learn, is what I work towards daily! My door is always open and love a quick chat anytime.

Let's go Tigers!
